

Focus

The Cambridge Camden Society was founded in 1839 and transformed Victorian church architecture. The Society also funded a demonstration project for their ideas, in Anthony Salvin's 1842 restoration of Holy Sepulchre Church ('The Round Church'). The tour will look at the spread of those ideas, by taking in key examples spanning the 1840s-1860s.

Itinerary

The tour will start from **The Round Church** (Church of the Holy Sepulchre) on the corner of Bridge Street and Round Church Street (CB2 1UB) at **10.30am**. Our timings for the day are determined by access to Jesus College Chapel, which is only possible from 1.00-1.45pm; for this reason it is proposed to have an early lunch.

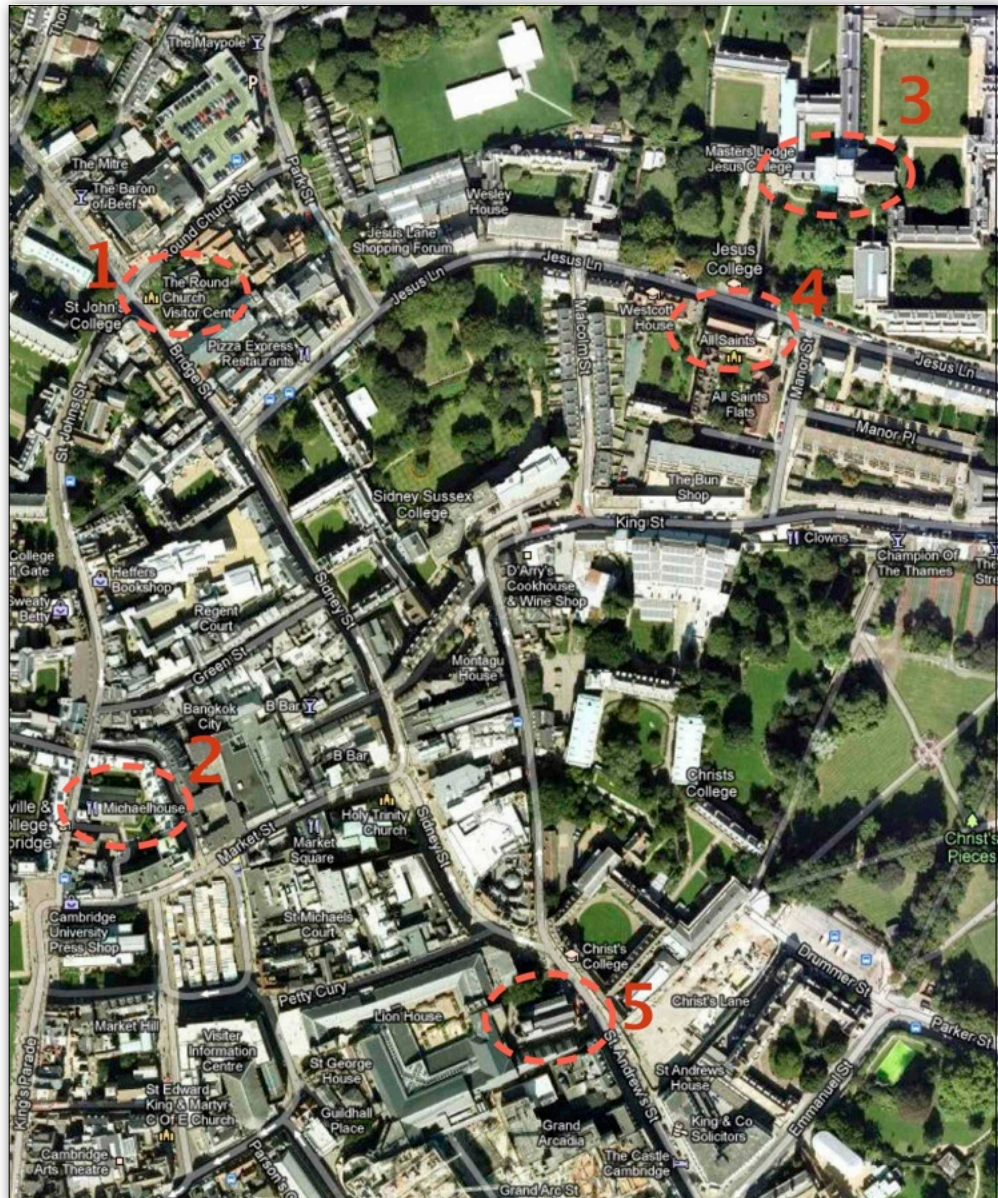

The tour will focus on five buildings, and the proposed route and timings are as follows:

1. 10.30 **Holy Sepulchre** ('The Round Church' - 12th C; Salvin Restoration 1842) (passing All Saints Garden and St John's College Chapel - George Gilbert Scott 1866);
2. 12.00 **Michaelhouse** (14th C; George Gilbert Scott restoration 1849) (here we can purchase an early lunch, or bring your own sandwiches to eat elsewhere);
3. 13.00 **Jesus College Chapel** (12th C; Salvin 1846, followed by Pugin 1850 and George F Bodley 1864; Morris decorations 1867; Morris and Company glazing from designs by Edward Burne-Jones and Ford Madox Brown 1873);
4. 14.00 **All Saints, Jesus Lane** (George F Bodley 1863, decorated by William Morris);
5. 15.00 **St Andrew the Great** (Ambrose Poynter 1842).

Finish by 4pm; total walk approx 1.8 miles.

- **Return** Citi 1 bus to Rail Station from Emmanuel St Stop E2 (direction Fulbourn).
- If travelling **by car**, Park Street Car Park is close to the Round Church, but expensive; otherwise Park and Ride.
